A Resume of Events in Religious Circles For Present and Future

—On Friday evening, December 23, the children of the Methodist church will give an entertainment at the church. At the same time the members of the church will bring their gifts for "White Christmas." Music by the Methodist Orchestra. Everybody invited.

—Every member of the Methodist Sunday school is expected to be in place next Sunday for the opening at 9:30 a. m. At 10:45 a. m. the pastor Rev. C. H. Greer, will preach on "The Welcome of the Christ Child." At 7:00 p. m. the subject will be, "What If Christ Had Not Come?" The Epworth League will hold its regular session at 6:15 p. m. There will be special Christmas music at all services. Every one is most cordially invited to attend all services.

—The revival meeting in progress at the Ruddle Mills Methodist church, conducted by Evangelist R. L. Stone, continues with the interest undiminished, and growing more and more with each meeting. There have been several professions of conversion. The meeting is now in its second week, and will be continued through this week to Sunday. During the meetings Evangelist Stone has been assisted very largely by Rev. A. G. Cox, at present residing in Millersburg.

—To-day has been selected by the Presbyterian church as the day on which the members and friends of the church and the Sunday school may bring their gifts for the poor of the city. The church will be open all day, and a committee will be present to receive and care for the gifts that are brought. To-night the members of the Sunday school will hold their Christmas social. A Christmas party was given Tuesday night at the church in compliment to the young men and women, who have been attending schools and colleges outside of Paris.

CHRISTIAN CHURCH.

—There will be regular services at the Christian Church, Sunday, Dec. 26. Sunday School begins promptly at 9:30 a. m. The subject for the morning sermon, 10:45 o'clock, will be, "A Christmas Choir." At 7:00 p. m., Rev. Ellis will preach a regular evangelistic sermon. You are most cordially invited to attend these services.

PRESBYTERIAN CHURCH

—The program for Christmas day at this church will begin with the Sunday School. Instead of meeting at 9:30, Sunday School will meet at ten o'clock. The Christmas program will be given by the Junior Department under the leadership of Mrs. Harry B. Clay. At 10:30 the regular morning service will be held in the church. The services will begin promptly and both the service and sermon will be shortened. The subject for the sermon is "Christmas Pardons." At the evening hour, 7:15, a splendid program of Christmas music will be rendered by a large chorus, choir and the quartette. This service promises to be of unusual beauty and power. The public is cordially invited to enjoy this special musical program.

—Monday evening at 7 o'clock there will be a program of Christmas music given by the chorus choir of the Presbyterian church of Paris. All the people of the community are invited to come and enjoy this program at the Hopewell church.

The last reading circle meeting of the teachers of the Bourbon County schools for the year 1921 and the last under the jurisdiction of Superintendent J. B. Caywood, will be held in the office of the Superintendent in the court house at ten o'clock to-morrow morning.

Every one-room teacher is expected to bring a written report on the principles upon which the teachers were to be paid their bonus. Each teacher must have his or her fourth monthly report made out and signed in order to get a pay check, according to Superintendent Caywood.

Mr. Caywood, the retiring Superintendent, will after the first of the year, be secretary-treasurer of the newly-organized Bourbon County Farm Loan Association, permission having been granted by the Federal Land Bank of Louisville. This association will have power to make their first loan of \$60,000. No office location has as yet been secured for the enterprise.

EDITORIAL FLINGS

As I sit here pounding wheezes,
I can feel some wintry breezes
And they seem to say "twain
sneezes,
"Better wear thicker bevedeeses"
Of laws there is no end, but how
about a law making running away
after an automobile accident in
which others are injured an offense
upon proof of the fact?

A girl walking up the street with
her hat in her hand, her wishbone
and two good reasons exposed to the
wintry blast, is one of the many
reasons why a man don't consider a
woman capable of voting.

It used to be that when a man
had failed at everything else, he
managed to get into the newspaper
business. But that is all changed
now. They are starting stations
for "gas" flippers.

A merry Christmas and a Happy
New Year to Woodrow Wilson.
Many of us have differed with him
on things, but his honesty and his
patriotism nor his greatness have
ever been questioned.

When girls are rivals
How they scoff
At one another's graces;
And how they kiss
The powder off
From one another's faces.

When you see two Paris men
nodding wisely at each other, and
then looking pityingly on the rest
of the crowd, you can guess they've
just read Thomas Edison's statement
that only two men in a hundred
are intelligent.

Says the crusty old Paris bachelor:
"It is true that there are just as
many good fish in the sea as have
ever been caught, but the fellow
whose proposal of marriage has been
declined with vigor reflects that
much depends on the fisherman."

A white Christmas
Or a green Christmas?
Nobody knows,
From here to the isthmus,
But I can tell you
By and by,
It's apt to be
A trifle dry!

Take one reckless, natural-born
fool, two or three drinks of bad
liquor, a fast, high-power automobile.
Soak the fool well in the liquor,
place him in the car and let
him go. After due time, remove
from the wreckage, place in black
satin lined casket, garnish with
flowers, and remove to the cemetery.

They were very much interested
in a feature picture at The Grand
the other night. The big man kept
reading the subtitles out loud,
greatly to the annoyance of those
around him. His companion finally
leaned over to his next neighbor and
remarked, in a tone loud enough to
be heard all around: "This big stiff
thinks I can't read. I can see and
read as well as he can." Then the
big man subsided.

"Do you know how pineapples
grow?" This query started an argument
in a Paris restaurant the
other night, which is still going the
rounds. The replies were as varied
as the sands of the sea. One fellow
even said they grew like beans or
peas in a pod. The guesses ranged
from vines to trees as big as an oak.
One young fellow said he had seen
them growing in Florida, and they
saw on bushes. So on the argument
went until one of the men
found an encyclopedia and settled
the matter.

NEW DOLLAR WILL COMMEMORATE PEACE PARLEY

The arms conference will be reflected in a new series of silver dollars, minting of which will be started immediately.

The design of the new dollars was approved by President Harding upon its submission by Director Baker, of the mint, following approval by the Fine Arts Commission. Director Baker said about 700,000 of the new dollars would be coined before the beginning of the new year.

The new dollar, which was designed by Anthony De Francisci, of New York, will have the usual head of Liberty on the obverse side, while the reverse will have a larger figure of an eagle perched on a broken sword, and clutching an olive branch bearing the word "Peace." Further depicting the dawn of a new era, the background will show rays of a rising sun.

The usual "E Pluribus Unum" and "In God We Trust" will also be on the coin.

SWIFT & CO.'S WEEKLY PRODUCE MARKET REVIEW

The volume of cream delivered to creameries during the week has continued to show an increase over the same week last year. It is generally recognized, that in most territories, at present, grain can be fed for milk production and give a larger return than if disposed of direct.

Increased butter receipts have caused a slight decline in market values, with corresponding lower prices prevailing for butter fat, but even at present prices, the comparison on butter fat prices is still favorable.

There has been a continuous heavy movement of poultry during the week, but prices are generally unchanged.

Continued open weather has resulted in further increases in the supply of fresh eggs, and as there is still a large quantity of eggs in storage, it has resulted in somewhat lower prices, both in buying and selling.

I AM A LITTLE CHRISTMAS SEAL

"I am a little Christmas Seal,
Oh please, sir, won't you buy me?
For I've a mission that is real,
And no one should deny me.
A penny, sir, will pay for me,
I'm sure you'll never rue it—
My mission is to fight T-B,
And you must help me do it."

"It's more than just a one-hand stunt
To slay this thing of terror,
So I'm the army at the front,
And you're the stretcher-bearer;
For where we come or where we go,
In foul or fairest weather,
Tuberculosis is our foe,
And we must stand together."

"Both life and health we may prolong,
If you will pay a penny;
Let's help the kiddies to be strong,
For united tots are many;
And, house to house and town to town,
Let's work to save the babies—
Oh please, sir, do not turn me down,
With promises and mables."

"Just kindly kiss me on the back
And stick me to a letter,
And for a penny and a snack,
We'll make the whole world better;
And oh, how glad we both shall feel
If you'll but trust and try me,
I'm just a little Christmas Seal,
Oh please, sir, won't you buy me?"

—Mal Rose.

CANDIDATES ELECTED MUST FORWARD THEIR CERTIFICATES

A statement asking that candidates who were elected at the November election see to it immediately that certificates of their election are forwarded to the Secretary of State, has been issued by Secretary Fred A. Vaughn. Secretary Vaughn said that officials who do not qualify by the first Monday in January cannot under the law, qualify afterwards. Quite a number, he said, have not been certified to the Secretary of State.

CHRISTMAS TREES CHEAPER

Paris merchants who deal in Christmas trees say the trees are much cheaper than for several years, due mainly to the larger supply and the labor and expense of getting them much less. A large quantity of decorative cedar, imported from the mountains, was on the market early in the week, and a goodly supply of it yet remains for those who have not yet made their arrangements for the holidays. It is less expensive than the regulation holly and is proving to be very popular since it can be used with little difficulty and lends a pleasing holiday touch.

CLOSED SEASON ON SQUIRRELS NOW ON

The attention of would-be nimmers is called to the fact that the open season on squirrels closed on December 15, by Game Wardens. According to the law persons are not permitted to kill, pursue or injure squirrels between the dates of December 15 and June 30, inclusive, neither are they permitted to have same in their possession between the above dates regardless whether taken in this or another State or territory.

Notice is served on Bourbon county hunters by the County Game Wardens that the provisions of the game law as regards the closed season on squirrels will be strictly enforced, and all violators convicted will be given the extreme penalty.

THIS TAKES THE CAKE OFF ALL THE REST

Isaac Einstein, prohibition agent, said he discovered why the seats in Tony Boylan's saloon, in New York, were so popular.

Whisky drinkers preferred the mahogany chairs. Other colors also had their patrons. Einstein claims that their popularity lay in the fact that each other color designated a brand of liquor which was concealed in the false bottom of the chair.

It was a "pay as you enter" plan. One entering the saloon, paid his money, picked out its liquid contents. No explanation was made as to how a person who was color blind would fare in this arrangement.

POSTMASTERS MAY HELP FIND MISSING MEN

Postmaster J. Walter Payne has had a new occupation wished on him by Postmaster General Will S. Hays. It is to assist in locating missing persons whose "mysterious disappearance" has been reported by the police departments all over the country. Hereafter the Paris postoffice will be one of the "ports of missing men," and all of the postoffice machinery will be placed at the disposal of those searching for loved ones who have dropped out of sight.

Every year thousands of persons are reported missing in this country. Children, young men and women, husbands and wives, disappear, and are never heard of again, or perhaps, only located after a long time has elapsed. The Postoffice Department, with its organized facilities reaching into every corner of the land may be of practical service to these distressed ones. That is why the Postoffice Department is offering its service to this purpose. There is no intention of interference in any way with private affairs of any individual or individuals. Postmasters have been instructed to investigate each case thoroughly that is reported to them, and will make such inquiries of other postmasters as the circumstances will warrant. The newspapers will also be asked to aid in the work, in co-operation with the postoffices.

WANTED CHRISTMAS TREE FROM OLD HOME

Many years ago Mrs. Beatrice Wilson was a resident of Bourbon county where she spent the days of her girlhood. In later years she moved to New York, which has since been her place of residence. Longing for some souvenir of her old home for the happy Christmas season induced her to write to a girlhood friend, Miss Genevieve White, to secure the prettiest Christmas tree she could get in Bourbon county and have it shipped to her at her New York home, 110 West 136th street. The tree was found after a long search, and was shipped to Mrs. Wilson, where on Christmas morning, it will occupy a prominent place in the Wilson household, and be at once an ornament and a connecting link with the "Old Kentucky Home," and a reminder to the happy ex-Kentuckian of other happy Christmas days in the old home.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. The origin of the fire is a mystery, according to members of the family. There was insurance on the tobacco.

INMATES OF INFIRMARY TO BE REMEMBERED

Following a beautiful custom inaugurated many years ago a committee of Paris and Bourbon county ladies, representing all the denominations and many of the charitable organizations, will see that the inmates of the County Infirmary are well-remembered, while the good cheer of Christmas time is at hand.

The committee will pay a visit to the institution Christmas day, taking with them a box of good things for each one of the dwellers at the infirmary. Many of the old people at the infirmary are practically friendless with no one to remember them at this glad season, and while a bountiful dinner is always provided for them by the authorities, yet it means so much to them in their loneliness to know that they are not entirely forgotten by the outside world. They have learned to look forward with eagerness to this Christmas visit and to the individual boxes that are given for their enjoyment, and it would be cruel to disappoint them.

Boxes already filled, of good things to be used by the committee in filling them, may be left at the home of Mrs. William Myall, 14 Eleventh street, to-day, and before Saturday morning.

KENTUCKY IS SPENDING \$1,430,000 ON SCHOOLS

School building construction is proceeding rapidly all over the country, and contracts about to be let approximate \$20,553,350, which will provide seating capacity for 36,371 pupils, according to the National Educational Association.

Reports to the President's Unemployment Conference from nearly every State are that building is being speeded up and school enterprises are rapidly taking shape.

Some of the States reporting extensive school building programs are Kentucky, \$1,430,000; Pennsylvania, \$10,300,000; New York, \$5,000,000; South Carolina, \$3,000,000; Maine, \$1,000,000; South Dakota, \$3,730,000; Utah, \$300,000; Arizona, \$1,321,000; Connecticut, \$2,798,000; Delaware \$400,000; and Florida, \$700,000.

Follow this Paris citizen's advice and give Doan's a chance to do the same for you.

Thomas A'Hern, proprietor restaurant, 927 Pleasant street, says: "Doan's Kidney Pills are all right and I can recommend them highly. I used Doan's sometime ago when I was out of order and my kidneys were all right."

my kidneys were all right. I would have dizzy spells and felt sleepy. I lacked ambition to do my work too. As soon as I began using Doan's Kidney Pills, which I got at Oberdorfer's Drug Store, I got relief and three boxes cured me."

TYPESETTER 41 YEARS

(Mt. Olivet Tribune)

The Tribune this week enters its forty-eighth volume. The Tribune was established November 26, 1874. Only a small number of our original subscribers now survive, and they, like the veterans of the Civil War, are now rapidly passing to the Great Beyond. The editor of the Tribune set his first type at Berry's Station, in Harrison county, on the 26th day of December, 1870, and he is probably the oldest printer in continuous service in the State, although not the oldest in years. We are now 66, and can, and do, set type as rapidly as we did fifty years ago.

EVERY TELEPHONE ITS OWN BUEGLAR ALARM

"The way of the transgressor is hard," especially when he comes up against electrical devices. Out in Ohio recently one of the nimble-fingered gentry undertook to rob a telephone pay station. Nobody was in sight, and everything seemed to be going well—from the thief's point of view—when suddenly the police descended upon him and he was caught in the act. He's still wondering how they happened to come along—they were sent. The pay station was equipped with a signaling device which indicated to the central office operator that it was being tampered with and she in turn notified the police.

At another central office it was noticed one night that all the lines along a certain route were going out of service one after another at short intervals. If a tree had fallen across the wires all lines would have been put out of action simultaneously, so the wire chief suspected that something queer was going on. There are electrical devices in every telephone exchange that show the location of "trouble" on any line, and in this case it was indicated that the wires were all broken at the same place.

Men were hurriedly sent out in an auto and when they reached the scene of action—a lonely spot in the woods—they caught a man methodically cutting down the wires, one after another, for the copper they contained.

THEATRICAL MEN TO ACT AGAINST COUGHERS

"If you must cough in the theatre do it at the box office," is the reaction of New York theatrical managers to news from Paris that producers there have started an anti-coughing crusade.

Producers are following the example of a Jersey City minister, who begins his sermon each Sunday morning by saying that if persons in his audience must cough, they should at least wait until the collection plate is passed and then cough up as hard as they please.

The cough in the theatre usually comes at the most dramatic point in the play, producers say.

Authorities agree with Paris specialists that about 75 per cent of the theatre coughs are inexcusable. They say a moment's concentration when the first coughing urge is felt will generally suffice it.

SPOKE TO DINNER GUESTS TWO HUNDRED MILES AWAY

A unique feature of the annual fall meeting and banquet of the State College Alumni Association of Mecklenburg county, North Carolina, held recently at the Selwyn Hotel in Charlotte, was the program of "long distance" addresses. Through the courtesy of the Southern Bell Telephone and Telegraph Company, the administrative offices at the College, 200 miles away, were connected with the banquet hall in the Charlotte Hotel, and each of the fifty-two guests was provided with a telephone.

A perfect connection was maintained all through the half-hour or more of speech-making, each guest at the banquet hearing distinctly every word of the speakers in Raleigh.

OFFICERS LIABLE TO FINE FOR ILLEGAL SEARCH

Federal officers convicted of conducting an illegal search with or without a warrant are now liable to a fine of \$1,000 on the first offense and a fine of \$100 and one year imprisonment on a subsequent offense, according to advice received by W. V. Gregory, United States District Attorney at Louisville.

This penalty is provided in the amendment made by Senator A. O. Stanley to the search and seizure section of the Willis-Campbell beer bill. It also makes the person who makes an affidavit supporting the warrant liable to prosecution, where it is proven that perjury was committed.

There is also a part that applies to practice of officers entering other premises in the same building where they have failed to locate contraband as specified in warrant, thus exposing themselves to prosecution under this amendment.

EXCELLENT POINTS IN EACH

But Totally Different Notes Are Struck in English and American Church Services.

How beautiful is the spirit of reverence which pervades an English church service, in contrast with the too free and informal air of our American worship. The sense of awe, of quiet, of yearning prayer, so wistfully poignant in these days, makes an atmosphere most favorable to inspiration and insight. It makes preaching a different thing.

In intellectual average and moral passion there is little difference between English and American preaching, but the emphasis is different. The English preacher seeks to educate and edify his people in the fundamentals of their faith and duty; the American preacher is more intent upon the application of religion to the affairs of the moment.

The Englishman goes to church, as to a house of ancient mystery, to forget the turmoil of the world, to be refreshed in spirit, to regain the great backgrounds of life, against which to see the problems of the morrow. It has been said that the distinctive note of the American pulpit is vitality; of the English pulpit, serenity. Perhaps each has something to learn from the other.—Joseph Fort Newton in the Atlantic Monthly.

DRILLING DEEP INTO EARTH

What Is Expected to Be World's Deepest Well Is Being Sunk Near Brownsville, Tex.

Barring the striking of oil (or some unlooked-for misfortune), the well which Neils Esperson, the wildcat wizard, is drilling up on the bank of the Rio Grande, 22 miles southeast of Brownsville, Tex., will become in due time the deepest hole in the United States. It passed the one-mile depth a few days ago, and the drilling is already progressing toward the 6,000-foot mark. The limit of 7,000 feet was set originally, but it is now planned to drill it to a depth of more than 7,200 feet in order to surpass the deepest well in the United States, which was of that depth and was drilled in West Virginia several years ago.

Puncturing a hole in the earth more than one mile below the surface is an engineering as well as a mechanical feat, it is explained. The wooden derrick is of giant proportions, rising to a height of 134 feet. It is built of huge timbers so that the strain of the heavy tools and continual pounding may be successfully borne. Upon the floor of the derrick are installed ponderous machines, all of a size and power far greater than is found necessary in drilling a well of ordinary size and depth.

The Coming Contest.

"I see your town is going to vote on the question of issuing bonds for a water works system," said a guest. "What do you anticipate will be the outcome?"

"Hard to tell," replied the landlord of the tavern at Tumlinville, Ark. "The young people are mostly for it, and the folks that have traveled and like to show off, and the newcomers from the North, and so on. But the old-timers are unanimously agin' it. They say they've never gone swimmin' in a house yet and it's too late now to learn old dogs new tricks, and, anyhow, they're opposed to paying for the privilege of going into Godalmighty's free water. So it looks like a stand-off."—Kansas City Star.

Evolution of a Name.

"I thought your wife's name was Elizabeth?"

"So it is."

"Then why do you call her Peggy?"

"Short for Pegasa."

"What has that got to do with it?"

"Why, Pegasa is feminine for Pegasus."

"Well?"

"Well, Pegasus is an immortal steed."

"What of that?"

"Sh! Not so loud. She's in the next room. You see, an immortal steed is an everlasting nag, and there you are!"

Life's Little Courtesies.

Stillwell seemed in none too good a humor when he got home from the office. "Hang it all!" he exclaimed. "We'll have to call on the Mortons tonight!"

"Why, Henry," said Mrs. Stillwell, "you said you wanted to stay home with me in comfort tonight."

"Yes; but Morton told Collins he and his wife meant to call on us tonight. We can leave their house earlier than we could make them leave ours."

Hard to Solve.

Extracts from a book on self-help: "Life is just what you make it. Don't do anything foolish. Get married in early life. Remember, one great mistake may last a lifetime." There is about as much help in that as there is in an income tax blank.

Valuable Experience.

"Has woman's participation in politics benefited the home?" "It has," replied Mr. Morton. "Her arguments at some of the meetings have convinced Henrietta that there are people in the world just as hard to get along with as I am."

"Evansvilians are drinking heavier than they ever did," said Miss Kathleen Moore, head of the city's charities. "They used to go to Chicago for a few drinks—now they make their own and drink it fast."

KENTUCKY RANKS 21ST IN POTATO PRODUCTION

Kentucky produced more than three million bushels of potatoes and more than one and a quarter million bushels of apples in 1919, according to one of the reports of the Census Bureau on the 1920 enumeration. While this may seem like a large crop, Kentucky does not rank very high among the States in either respect. It stands twenty-first in the production of potatoes and twenty-sixth in the production of apples.

The total production of potatoes in the United States for 1919 was 290,754,580 bushels, of which Kentucky produced 3,131,377 bushels, or rather an insignificant part of the entire crop. Nearly two-thirds of the potatoes grown in Kentucky were consumed on the farms where produced, since only 1,177,166 bushels or 37.6 per cent were sold. Out of a total apple crop of 136,560,997 bushels, Kentucky produced 1,280,549 bushels, or less than a hundredth part of the apple crop of the State which was consumed at home, since the reports of the Census Bureau show that only 371,569 bushels, or 29 per cent, of the crop was marketed.

CHAMPIONS

An Orpington hen laid 314 eggs in 325 days at the Delaware College experiment station. This is said to break the world's record. Four thousand dollars has been offered for the hen, but she is not for sale.

But the hen doesn't deserve much credit, when you come to think of it. It was the brains of scientists, experts at crossbreeding, that created that record number of eggs. Some day those brains may make every hen produce as many eggs as this \$4,000 Orpington.

Most of our most important activity in this generation is in experimentation—that is, making valuable discoveries for our descendants.

THE RAILROADS

The transportation business as has been pointed out repeatedly, is the only one in the world whose scale of expense is fixed by one body of men, and whose charges for meeting this expense is fixed by another.

The railroad labor board tells the roads how much wages they must pay and what expenses they must incur in numberless ways.

An entirely different body, the interstate commerce commission, tells the roads how much they may charge to meet their expenses.

The latter is necessary, for the roads are virtually monopolies in transportation and hence rates cannot be fixed by competition. But they are not monopolies in the employment of labor.

A man in Texas who wants a ton of coal from West Virginia cannot get it at all except by rail, but no man is obliged to accept the railroad's terms of employment or go without work.

Everybody is willing that railroad men should receive more liberal wages than the average worker, for they are above the average worker in the necessary personal qualities and the responsibilities of their duties.

But when they are given abnormally high pay, the result is hardship to the vastly greater number of laborers in other lines whose costs of living are increased by the amount by which a special class of workers is overpaid.

The Southern Christian Advocate, in discussing this matter not long ago, aptly said that "the sooner both capitalists and laborers recognize that the object of human exertion is the production of wealth rather than the acquisition of money, the sooner will many points of conflict be eliminated."

MOTHERS' PENSIONS

Pensions for mothers with more than eight children are urged by Judge Esch, of Chicago, in a letter to President Harding.

Forty States now grant pensions to mothers of dependent children when the father is dead or incapacitated. Illinois was the first to pass such a law. Judge Neil fathered it. He is internationally known. The mothers' pension law just enacted by the Republic of South Africa was largely due to his campaigning there.

All women want children. Many would have more if they were not afraid of poverty. Would pensions for mothers of large families end race suicide and make Rooseveltian families the rule instead of the exception? Judge Neil thinks so.

It is pleasant to have a fortune teller say that you have money coming to you. But most of us had rather hear that from the paying teller at the bank.

Incidentally, how about disarming some of the moving picture actors?

QUEER METHOD OF DEFENSE

Fishes That Have the Power of Inflating Their Bodies, Frightening Their Enemies.

The swell fishes of tropic coast waters have the power of suddenly inflating the body with water or air until they assume an approximately globular form several times the normal diameter, which must be disconcerting to any enemy about to seize one. The porcupine fish, in addition to doing this, has the body everywhere covered with long, sharp spines which project in every direction like the quills of a hedgehog. The trunk fishes, instead of being protected in this way, have the body encased in a bony shell, like a turtle. In the East Indies there are rectangular species, but ours are three-cornered, beechnut shaped. They go by various names—cuckold, shellfish, and so forth, the cowfish being a species with two hornlike spines projecting from its forehead. They are excellent eating, cooked in the shell like a lobster. The back muscles of the swell fishes are sometimes eaten, but make a risky delicacy, as there are well-authenticated instances of severe poisoning from eating these fishes. The poison seems to be localized in the viscera and to permeate the rest of the fish after death.

TAKING TO "LOUD" PATTERNS

Pittsburgh Interior Decorator Says Women Will Soon Resemble Animated Parlor Chairs.

Have you seen what appears to be a corner of a boudoir walking down the street? Well, you soon will. They are already appearing in tennis courts, hereabouts. Girls in chintzes and cretonnes, with large splashy patterns all over them, exactly like the velvet parlor chairs in their summer wrappings, they are. Bright carnation drapery lunens with blue stripes and yellow dots, scenic chintzes of huge patterns and vivid hues in futuristic designs showing languorous figures in eccentric poses are among the favorites not only for sport skirts, but for entire costumes, hats and bags. "I never thought of going into the dressmaking business," said an interior decorator, "but women seem to be buying more large figured drapery fabrics for clothes than for houses this season. There are some designs I will not let them have, though, for such purposes." He showed a chintz enormously patterned with red and yellow farm scenes. "That, for instance," he added, "one of them was determined to dress herself in, but I said positively that she couldn't."—Pittsburgh Leader.

BALKED AT WORD "COMMON"

Profiteer Felt It Was Due to His Dignity to Have Nothing But the Very Latest.

Bishop Homer Stunts said at a dinner in Omaha:

"If we were all as ambitious to progress ethically as our war profiteers are to progress socially, it would be a very good thing."

"A war profiteer decided recently to drop the Baptist faith and turn Episcopalian, as all the bang-up people in town went to the Episcopalian church."

"So he visited the bookstore and asked for the hymnals, Bibles and so forth that he would need in his new way to worship."

"He seemed well enough pleased with the volumes that the salesman laid before him till he came to the Book of Common Prayer. Over this he frowned and shook his head."

"This'll hardly do," he said, and he tapped the title with his forefinger. "Let's have something a little more select, bo."

The French Sportswoman. Georges Carpentier was talking to a girl reporter.

"The modern Frenchman," he said, "is well up in sport, but the French woman is still rather retrograde."

"I know a young Frenchwoman who called a friend up on the telephone the other day and said:

"I'm sorry to trouble you, dear madame, but can you give me a good recipe for cooking clay pigeons? Jacques has just sent me word that he is going out to shoot some, and he is sure to bring a lot home, and I can't find a single word about them in the cook-book."

Prudent Mentality.

"You appear rather proud of the fact that you are unable to understand the relativity theory."

"I'm not exactly proud," replied Senator Sorghum, "but I am resigned. I put great faith in the wisdom of the plain people. So long as the plain people didn't get the idea I don't believe it would be to my advantage to assert any superior intelligence or exclusive information."

Personal Exemption.

Mrs. Henpeck—Hereafter, bring me your pay envelope as it is handed you, unbroken. There's a shortage here. Explain.

Mr. Henpeck (bravely)—I took out my car fare and lunch money, which under the income tax law I interpret as my personal exemption.—New York Sun.

Interrupted Profit.

"I understand there is oil in the neighborhood of Crimson Gulch."

"There is," replied Cactus Joe. "But it was mislabeled. They insisted on tryin' to get it out in paying quantities instead of goin' on forever sellin' stock."

WHAT IS RECEIVED? STUMPS JOURNALISTS

The members of the journalistic profession owe much to the invention of the telephone, for it is one of the most useful of the tools with which their day's work is done. But they appear to have a longstanding feud with the unknown individual who named the various parts of the instrument. They cannot seem to get it through their heads that the thing that receives your voice is not the receiver, as it might seem that it logically ought to be, but the transmitter.

Ordinarily the error passes unnoticed, but New York telephone men have been reading with glee a sketch by a columnist in one of the leading evening papers of the metropolis, in which the writer did a little "from life" description of human nature as seen in a department store telephone booth.

"Often it seems necessary," notes the writer, "for some mysterious sharing of secrets or shopping plans, for two ladies to occupy the same booth at the same time; how they do it we cannot guess, but they sit demurely squeezed upon one another and their faces appear side by side, both apparently talking into the receiver."

LOOK PLEASANT, PLEASE!

("Topics of the Day" Films)

Facing a professional camera is a joy to some of us and a task to others. Of course, mere amateur snap shots are no ordeal. Since the movies have become such a national institution, every other person you meet has developed a desire to appear before the camera. The majority of us pose for portraits merely for private consumption or infliction upon our family and friends. Our actress and actor friends of stage and screen spend many an hour posing in characteristic attitudes. They have developed the patience necessary for good photographic results. Perhaps it is no joke for you to have your picture taken. But you enjoy every minute that the popular "Topics of the Day" Films are on the screen. To place yourself in a happy mood for the photographer to "shoot" you, just read the humor printed herewith by THE BOURBON NEWS:

Proud Mamma—"What do you charge for taking children's pictures?"

Photo Man—"Ten dollars a dozen."

Proud Mamma—"But, I have only eleven children."—Hazz Whiskers.

Patient Photographer—"Cumcum! Look at the birdie!"

Intoxicated Person (reaching for his hip)—"I, hic, can't see any birdies, but here's a, hic, coupler swallows."—Vaudeville News.

Portrait Photographer—"Look pleasant, please!"

Major Jack Allen—"I can't. I'm thinking what this is going to cost me."—Rutgers.

Stage Manager—"There is one thing I would like to know about this photograph of a drinking scene in the play."

Photographer—"What is that?"

Stage Manager—"Was it made with dry plates?"—Baltimore American.

A brother and sister were inspecting photographic proofs.

Kid brother—"Not enough animation in your picture, Kate."

Kate—"What do you expect, free movies?"—Ada (Ohio) Herald.

Tony—"How does Trixie get her photographs without cost?"

Toinette—"Some photo-graft scheme, I guess."—Rutgers.

"I'll say that love is like a photographic plate."

You ask me why.

Then I'll say that it takes a dark room to develop it."—Ohio Sun Dial.

Mrs. Gabbie (showing photo to husband)—"This is an instantaneous picture of myself."

Mr. Gabbie—"I can see that without having it told. Your mouth is shut."—Syracuse Herald.

Fordson TRACTOR

\$625
F. O. B. Detroit

"Yes I've more Time for Myself Since I Got a Fordson"

The Fordson Tractor is taking much of the drudgery out of farm life; it is solving the labor problem; it is reducing the cost of preparing land by almost one half of what it was with horses; and it is saving one third to one half of the farmer's time; and making farm life more attractive.

The Fordson will run your threshing machine—and at the most opportune time for you. It will operate the milking machines, saw your wood, fill your silo, pump the water, and take care of every kind of belt work—

And don't forget—it will plow six to eight acres in a ten hour day, handling two plows with ease.

Thus the Fordson is the ideal year-round tractor. It will pay for its fall and winter keep in many ways.

There's a big story to tell you about the Fordson—and a true one—come in and get the facts. Or, if you prefer, telephone or drop us a card and we will bring them to you.

BIRTHS

Mr. and Mrs. Clay Ward are receiving congratulations upon the advent of a handsome little daughter, born yesterday afternoon at three o'clock at the Massie Memorial Hospital. Mrs. Ward was formerly Miss Niede Rosco, of Lexington.

COMMERCIAL CLUB LUNCHEON

The monthly dinner of the Paris Commercial Club, given Tuesday night in the Mammoth Garage was one of the most enjoyable of the many given by that organization. Dr. William Hutchings, president of Berea College, was the speaker of the evening. Dr. Hutchings' address was a masterpiece.

A distinctive feature of the evening's entertainment was the musical program, presented by the Girls' Quintette from Berea College, solos by Hiram Redmon, who posed as "Prof. Jazzarub," and Harry Kerslake. The soloists were accompanied by Dr. and Mrs. Harry E. Mathers. About seventy-five guests were present.

Lots of men like football but not one of them was ever able to tell why.

DEATHS

Life Is But A Brief Span, A Debt That All Must Pay

HOLBROOK

Otis Holbrook, aged eleven, died Tuesday morning at the home of his parents, Mr. and Mrs. C. S. Holbrook, near Centerville, after a short illness of spinal meningitis. The little fellow was a favorite in his neighborhood, and was the only child in the family. His father is principal of the Hill School, near Centerville. The funeral was held yesterday af-

ternoon at two o'clock, with services conducted at the grave in the Jacksonville Cemetery by Rev. W. E. Ellis, pastor of the Paris Christian church.

MARSH

In the death of Mr. Benedict B. Marsh, familiarly known as "Dick" Marsh, which occurred at eleven o'clock Wednesday night at the family home in East Paris, Bourbon county loses one of its best citizens and the community a well-known figure. Mr. Marsh had been ill for some time with pneumonia, which later developed into complications of a nature which defied the best that medical skill could do, and the end came peacefully at eleven o'clock Wednesday night.

Mr. Marsh was the son of the late Benedict and Martha Ward Marsh, pioneer citizens of the county, who

were prominently identified with its early history. He was born in this county on May 9, 1854, and had spent all his long and useful life in the community, having been engaged in farming on the old home place. He was married in early life to Miss Lula Ament, of Bourbon county, who survives him. Mr. Marsh was a member of the Presbyterian church, and stood high in the community as a business man.

Besides his wife, Mrs. Lula Ament Marsh, he is survived by one brother, Mr. Beal Marsh, of Robinson Station, in Harrison county; three daughters, Misses Janie and Katherine Marsh, both of Paris, and Mrs. W. H. D. Wheat, of Ft. Thomas, Ky., and one son, Mr. Harry Ament Marsh, of Paris.

The funeral will be held at the family residence in East Paris, at 2:30 o'clock this (Friday) afternoon, with services conducted by Rev. T. S. Smylie, pastor of the Paris Presbyterian church. The burial will follow on the family lot in the Paris Cemetery.

The pall-bearers will be: William Clarke, John Wright, Dr. Jas. A. Orr, Clark Barnett, Dan Isgrigg, Harry James, F. P. Lowry, W. B. Corbin.

ATTEMPTED BURGLARY

Burglars made an attempt Wednesday night to effect an entrance to the grocery store of Robt. Turner, Jr., on Main street. When Mr. Turner came to his place of business to open the house for the day he found a skeleton key broken off in the lock. The visitor had evidently been frightened away before he could get in, and in trying to get his key broke it off.
